

DESIGN OF MECHATRONICS 2

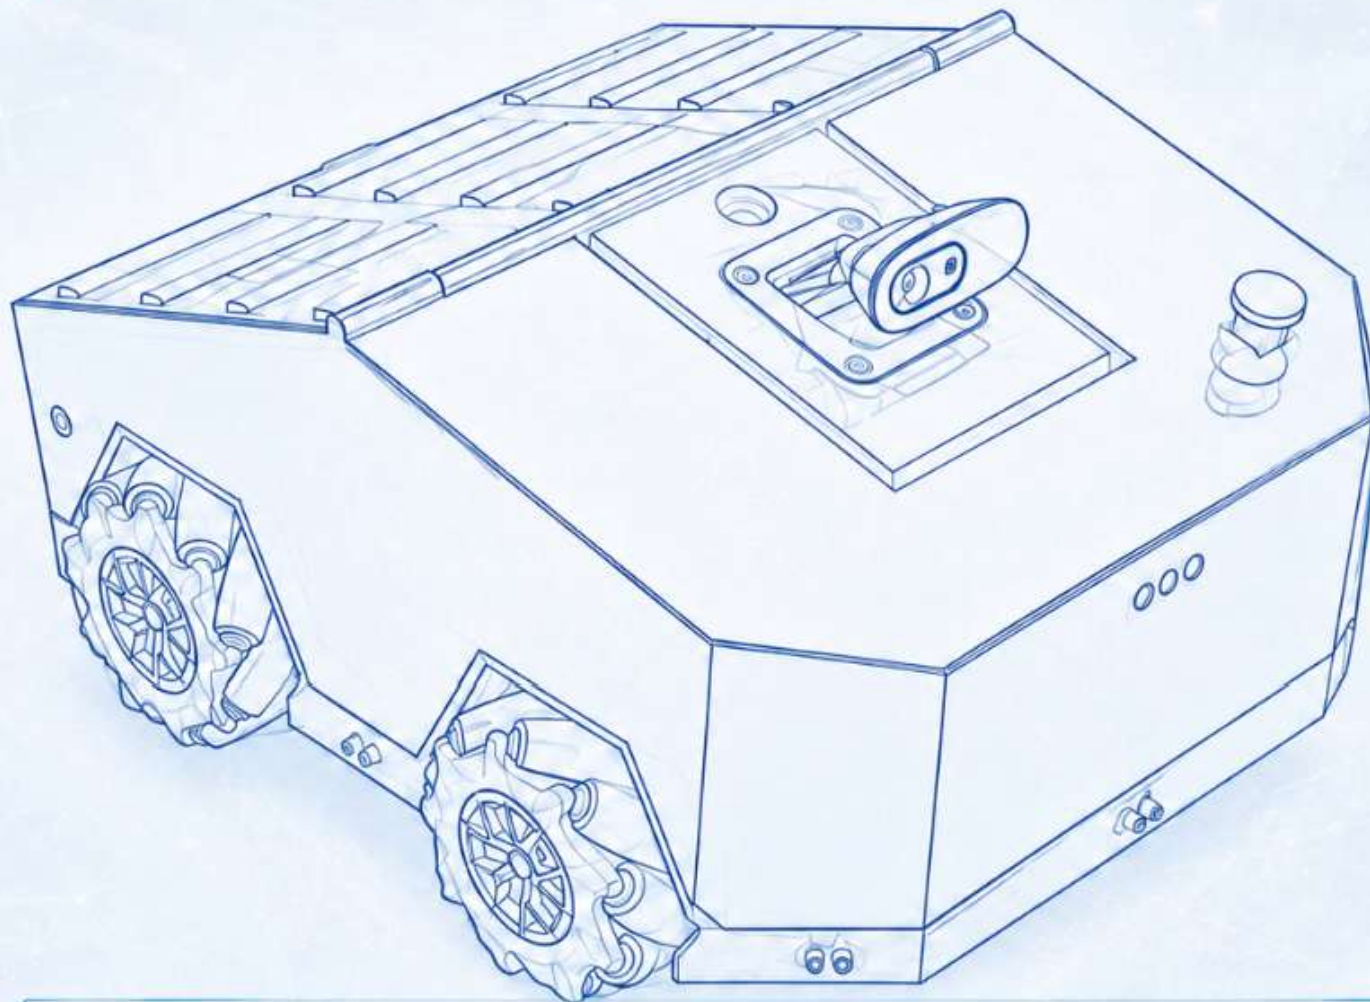

IDEAS. INNOVATION. IMPACT.

***Different
Teams.
Different
Ideas.***

« BUILT FROM SCRATCH »

A memory for every builder.

To every team that brought its own idea to life:
Different projects, different challenges, different paths — yet we all shared
the same journey of building something from nothing.
Every late night, every failed test, every fix, every small success, and every
moment of doubt became part of what brought us here today.
On behalf of AUDIX's team, we are proud to have shared this experience with
you, and grateful to be part of a year filled with effort, creativity, and
unforgettable memories.
Different teams. Different ideas. One journey we built together.
